TAXATION BILL FACES DELAY

Measure Will Not Be Ready for Several Weeks.

TO MAKE CHANGES.

President and Senators Fix Program for Upper Chamber—Tariff After Recess.

Washington, July 28.—Chairman Fordney, of the Ways and Means Committee, dismissed definitely today the hope that the bill revising internal taxation will be passed in the House by August 6. At the White House yesterday it was indicated that the President expected the bill to be through the House by that date.

Instead of the bill being passed by August 6, Mr. Fordney said, he expected to complete the taxation hearing by that date. He held out no hope that the Ways and Means Committee would be able to report the bill in less than two weeks after the end of the hearings, saying that important changes are to be made in the administrative features of the law and the work of framing the bill must be done very carefully. This means that the taxation bill will not be through the House much before September 1, if it is finished by that date.

Out of today's hearing before the Ways and Means Committee came a proposal to consolidate all the present corporation taxes in one income tax, which was received very favorably by the Republican members, who will write the bill. Hugh Satterlee, of New York, discussing the excess profits and capital stock taxes on corporations, suggested that it would be better if both were wiped out, and ecrporation tax concentrated in one levy.

Chairman Fordney said afterward that he was very favorably impressed with the idea. The excess profit tax is slated for abolition, of course, and the revenue that has been gathered from that source is to be got, according to the Mellon-Fordney plan, by raising the corporation income tax from 10 per cent to 15 per cent. If the capital stock tax also were wiped out, and if the revenue gathered from it were raised in the future from the tax on corporate incomes, it might be necessary to put the corporate income tax at 16 per cent., instead of 15 per cent., as planned.

Mr. Satterlee estimated the amount of revenue yielded by the capital stock tax at about $93,000,000, but Chairman Fordney said he thought

Moonshiners Remodel Woman's Country Home.

Chester, Pa., July 28.—When Mrs. Josephine Flood took possession of her farm out in Bethel township, this county, today, the place having been vacated some time ago by a Polish family, Mrs. Flood says she found the house had been rudely remodeled on the interior to accommodate an apparently well equipped moonshine industry. "From cellar to garret," Mrs. Flood says, "the walls are covered with evidence of 'hooch' making.

"Holes were cut in the floors to accommodate pipes from the stills, and the place was otherwise damaged." Mrs. Flood says it will cost several thousand dollars to permanently remove all evidence of the moonshiners' work.

Baby Grandson Of Kaiser Given Back To Mother.

Berlin, July 28.—One of the prerogatives of the fallen Hohenzollerns has been thrown into the discard.

The Hohenzollern "house laws" cannot be taken into account by the German courts, it has been decided by a district court in Potsdam, which ordered Prince Eitel Frederick, one of the Kaiser's sons, to deliver little Prince Franz Joseph to the latter's mother, who is the widow of Prince Joachim, another of the former emperor's sons.

Prince Eitel assumed the custody of Prince Franz when Joachim committed suicide in Potsdam, basing his action on the Hohenzollern house laws. He claimed that as he was the ranking member of the family in Germany he now was entitled to administer these laws and that the young prince should therefore remain under his care.

The court, however, thought different in these times of a Republican government, and imposed the costs of the action on him.

JAPAN WILL TAKE PART

Mild Reservations Are Made by Tokio Government.

TO SHOW HAND LATER

Tokio's Attitude Trusted—Secretary Hughes' Note—Text of Japan's Reply Given.

Washington, July 28.—Japan gave notice to the State Department today that she accepted in full the invitation of President Harding to participate in the disarmament conference and to discuss the settlement of Pacific and Far Eastern problems.

At the same time the Japanese laid down what must be regarded as a "mild reservation," when, in concluding their note, they suggested in order to insure the success of the conference, "that the introduction therein of problems such as are of sole concern to certain particular powers or such matters as may be regarded as accomplished facts should be scrupulously avoided."

There is nothing whatever in the Japanese communication to indicate what questions Tokio regards as of sole concern to any individual power or what matters she may regard as accomplished facts. This is to be left wholly to speculation until in the preparation of an agenda Japan lays down her hand.

Meanwhile, the State Department is wholly satisfied with the outlook for the conference. Officials of the department regard the willingness of Japan to go into the discussions without specific reservations as a mark of her eagerness to agree with other powers on a solution for the most difficult international problems now remaining unsettled.

There is no disposition whatever on the part of Administration officials to distrust the Japanese attitude or to assume that in the conclusion of her message there is concealed dynamite which may explode the whole proceeding and defeat the purposes of the confreence.

Japan's note, made public by Secretary Hughes this afternoon, is in response to a communication forwarded to Tokio by the State Department on July 23, in which the hope was expressed that Japan would accept the President's invitation in full, "leaving open for adjustment the precise agenda to be arrived at later." Prior to the dispatch of that communication Japan had accepted the invitation so far as it related to limitation of armaments, but had made innuiry as to what Far Eastern question would be taken up for consideration.

Mr. Hughes did not wish to assume responsibility for even a tentative agenda, but took the position that once all the powers involved had agreed to attend the conference they might interchange views as to the questions to be discussed and agree upon an agenda.

Mr. Hughes' note bearing upon this phase of the matter follows:

The Government of the United States deeply appreciates the readiness of the Imperial Japanese Government to accept the invitation to attend the Conference on the Limitation of Armaments.

The Secretery of State of the United States in the course of informal conversations with his Excellency the Imperial Japanese Ambassador at Washington has expressed the hope that the Imperial Government would not press its inquiry as to the nature and scope of the Pacific and Far Eastern problems to be discussed at the proposed conference, in view of the fact that it is desirable that the full acceptance of the invitation of the American Government leaves this matter open for adjustment in the precise agenda to be arrived at later.

The Secretary of State is willing to proceed with exchanges of opinion regarding the agenda prior to the meeting of the conference. He considers it inadvisable, however, at the present moment to hamper the program and in particular to delay the arrangements for the confreence pending an agreement regarding this matter.

Japan's answer follows:

"The Japanese Government has taken note of the contents of the American memorandum of July 23, received through the American Charged'Affaires in reply to the Japanese memorandum of July 13 on the subject of a conference on the limitation of armaments to be held in Washington.

"It has been brought to the knowledge of the Japanese Government that the Government of the United States is willing to proceed with exchanges of opinion regarding the agenda prior to the meeting of the conference and that it considers it advisable to adjust in that agenda the nature and scope of the Pacific and Far Eastern question to be discussed at the proposed conference. The Japanese Government, of that understanding, is happy to be able to inform the American Government that it is its intention gladly to accept an invitation for a conference which shall embrace the discussion of the Pacific and Far Esatern questions.

Adrift 12 Days Before Rescued.

Rockland, Maine, July 28.—A. B. Tunning, of Nantucket, was rescued by fishermen Tuesday off Metinic Island after he had been adrift at sea in a disabled 42-foot motor boat for twelve days. it was learned today. When picked up Tunning was nearly starved, and told his rescuers in another day he had planned to cut off a toe and use it for bait in an attempt to catch fish.

Tunning left Nantucket July 13 to go to the Pilgrim Pageant at Plymouth. Soon after starting out the engine of his boat went bad and he drifted out to sea in a heavy fog. After consuming a small amount of fruit on the 13th Tunning went through his twelve-day drift without food.

"Nice Trip To Haiti" for "Some Senators."

Washington, July 28.—The Senate adopted today a resolution by Senator McCormick, Republican, Illinois, providing for an investigation of American occupation and administration of Haiti and Santo Domingo. A special committee of five Senators will conduct the inquiry.

Senator Jones, Republican, Washington, told the Senate that the investigation meant only that "some Senators will get a nice trip and nothing will come of it."

Record Fruit Season.

"Shipments of peaches and water melons from Georgia for the 1921 season have surpassed all previous records according to figures compiled by the Southern Railway System from official sources 10,234 cars of peaches had been shipped from Georgia up to July 22nd, and the crop is expected to run about 10,500 cars. In 1920 Georgia shipped 5,663 cars of peaches. With a great part of the watermelons still to be shipped, Georgia has already passed the total for 1920. Up to July 16th Georgia had shipped 10,110 cars of watermelons and shipments since then have run about 150 cars per day. The result show that there was no ground for apprehension expressed early in the season that the Georgia peaches and melons would not move this year. Prices received by growers have been quite satisfactory. The Atlanta Journal estimates the returns received by Georgia growers from the two crops so far at ten million dollars, favorable weather continues. Improved transportation facilities and better method of marketing are among the factors which have contributed to the success of the Georgia progress."

EXPECT 2500 VOTES TUES.

Speculation As To Number That Will Be Polled

READY FOR PRIMARY.

Total of About 3,800 Qualified To Vote In City—Trinkle Leads Gubernatorial Contest.

There is considerable speculation over the number of votes that will be polled in the primary next Tuesday. There are close to 3,700 persons qulified to vote in the coming primary. However, it is estimated by those who have made former predictions that not more than 2500 votes will be polled. It is argued that there are a certain number of voters who will be out of the city on their vacations and that several hundred who will vote the republican ticket in the November election will not participate in the primary and that there always is a certain percentage who simply do not vote, although they are on the list.

Those who are accustomed to estimating the votes polled in elections say that if Alexandria polls 2500 votes next Tuesday it will be a good sized vote all things considered.

As the time approaches for the primary the interest becomes more and more pronounced and politics just now is the principal theme of conversation.

That State Senator Trinkle will carry Alexandria city by a big majority goes without saying. He is growing in favor here daily and the only question is as to what will be his majority will be in this city.

Golf Named By Wife In Suit for Divorce.

New York, July 28.—How the game of golf alienated the affections of Sterling P. Hayward, vice-president and general manager of the Conetti Iron Sponge and Governor Company, was set out in affidavits by his wife, Rachel B., read today before Vice-Chancellor Fielder, in Newark, N. J. Mrs. Hayward applied for temporary alimony, pending the outcome of her petition for a divorce. The court disallowed the alimony claim.

For several years Mrs. Hayward swears her husband's addiction to golf was so strong that he virtually excluded her from his life. He treated her cruelly in the presence of others, including their two children, she adds.

Last April Hayward went to Great Britain to attend the international golf matches and during the six weeks he was away, his wife averred he allowed her $15 a week. Charging that golf has become "a mania" with him, Mrs. Hayward declares her husband spends most of his time on the Glen Ridge Country Club links.

TODAY'S THOUGHT Between the acting of a dreadful thing and the first motion, all the interim is like a phantasma, or a hideous dream: the Genius and the mortal instruments are then in council; and the state of man, like to a little kingdom, suffers then the nature of an insurrection.

ELOQUENT FACTS

The United States Census is full of the most interesting statistics, if we have time and patience to delve into it. A recent writer has had both, and his researches have borne fruit. It seems that out of our population of 105 million, some 45 million attend church, while 20 million go to Sunday-school. There are two million of us who teach in Sunday-school, and 200,000 of us who are spiritual shepherds to their flocks. Church-going is on the increase, active membership having practically doubled in the last twenty-five years; while the population has increased only 69 per cent. Church property is valued at two billions of dollars, with 500 million for endowment. Nearly 7 million persons became members of religious bodies during the ten years ending December 31, 1916—including two years of the world-war. The churches spend 50 million a year for special extension work. They spend nearly 16 million additional on foreign missions, while the maintenance of meeting-halls, clergymen's salaries and those of other workers amounts to over 400 millions of dollars annually.

It is the consensus of opinion among thinking people that moral instruction, religious teaching, if you will, is the only means of preserving our civilization. The cultivation of the intellect alone will not suffice. Metaphysics was termed by John Stuart Mill, as "that fertile field of delusion propagated by language." Yet Stuart Mill was as far on the farther side of the question as he deemed Kant or Schopenhauer on the hither side. Science offers, and can offer, no solution of the problem of human existence and human destiny. Philosophy is equally at fault except in so far as it roots itself in divine revelation.

Only, then, as the world grows more religious, does it grow better. And it is a most encouraging and significant sign, for this world of ours today, that religion is on the increase among the people of the United States. Once it might have been truly said that "things were of the snake." Even into the 19th century, "things were in the saddle and rode mankind."

But the dawn of better days is certainly visible in our own century. The world is becoming altruistic. Service is the new word inscribed on its banners: and service is the handmaid of religion—service to man and service to God—both—for they are one and inseparable.

Legislative Candidates.

One of the candidates for the State Legislature is Charles Henry Smith, a lawyer of this city, in active practice of his profession. Mr. Smith was born in Westmoreland Cuonty, and educated at William and Mary College. He studied law at Washington and Lee University, and University of Richmond. His whole life has been spent in this state, and he has practised law in Gloucester County—and Alexandria. He was for some time Examiner of Records for the 13th Judicial District, being the youngest Examiner in the State, and made an excellent record with the State Tax Commission. He is well-known in Alexandria, where he has always taken active part in movements looking to the building up of the city. Mr. Smith submits his record to the people, and is sanguine of success.

CHEESE

(For the Gazette.)

All good cheeses are pure, healthful foods.

Cheese making is now one of the most important and profitable industries in the United States.

Weight for wieght cheese contains more protein and 50 per cent. more fat than does cooked fat. An ounce of cheese is euivalent to one egg, a glass of milk, or two ounces of meat.

Brie, Camembert, Coulommier, Neufchatel and Roquefort are French cheeses distinctive of various parts of that country and differ, in some cases, very much in flavor and appearance.

If growing boys or girls who are so active, were given a lu cheese, bread and fruit, in place of cake and sweets (which is so common among the American people), there is no doubt that more robust constitutions would be developed.

Cheese is an excellent tissue builder and an economical food.

The high flavors of cheeses are due to the natural ripening processes.

Cheese, whether cooked or raw, is soft in texture, and therefore better served with crackers or the hardest kinds of bread.

Mrs. R. Rice, of 34 Maple Avenue, Rosemont, won the first free cook book at the Alexandria County Lighting Company yesterday.

WOMAN AVOIDS AN OPERATION

Hope Nearly Gone, but Lydia E. Pinkham's Vegetable Compound Saved Her

Star, N. C.—"My monthly spells gave me so much trouble, sometimes they would last two weeks. I was treated by two doctors without relief and they both said I would have to have an operation. I had my trouble four years and was unfit to do anything, and had given up all hope of ever getting any better. I read about your medicine in the 'Primitive Baptist' paper and decided to try it. I have used Lydia E. Pinkham's Vegetable Compound and Lydia E. Pinkham's Liver Pills for about seven months and now I am able to do my work. I shall never forget your medicine and you may publish this if you want to as it is true."—Mrs. J. F. Hursey, Star, N. C.

Here is another woman who adds her testimony to the many whose letters we have already published, proving that Lydia E. Pinkham's Vegetable Compound often restores health to suffering women even after they have gone so far that an operation is deemed advisable. Therefore it will surely pay any woman who suffers from ailments peculiar to her sex to give this good old fashioned remedy a fair trial.

RICHMOND—ALICE BRADY

Alice Brady, the Realart star, will be seen at the Richmond Theatre tonight, in "The Land of Hope," a drama dealing with the experiences of a beautiful young Polish girl who comes to America to win her fortunes as a dancer.

INGOMAR—EUGENE O'BRIEN

Action, mystery, surprise and all the other elements that go to make a fast moving drama are crowded one upon the other in Eugene O'Brien's new Selznick Picture, "The Last Door," a special screen story written for the star by Ralph Ince and W. B. Foster, picturized by Edward J. Montagne and directed by William P. S. Earle.

To say that this is one of the swiftest moving plays in which the star has appeared is putting it mildly. "The Last Door," probably is the finest production in which O'Brien has starred and it will with out doubt be regarded as one of the most satisfying starring productions ever made for the screen.

SEE

Clara Kimball Young

①As the modest house-wife
②As the woman of wealth
③As the much abused nurse
④As the outcast dishwasher

In her greatest picture drama of many seasons

"Charge it!"

Dedicated to all women who don't realize the value of money....

Of all the sad words of tongue or pen, the saddest are these, please "CHARGE IT" again. See beautiful Clara Kimball Young in her greatest drama. She had a fine home, a loving husband, plenty of friends, yet she threw them all aside in her thirst for riches, and power. See how the smallest things grow into avalanches of disaster for those who will not heed. See how the insignificant phrase

"Charge It!"

lost for her, those splendid things of life that bring happiness. See the mirror held up to society. See how one class apes the other. See how far a women can fall and still maintain her pluck. See in this fascinating drama of life how wonderful is modesty, how fine is truthfulness, how splendid is honor. Don't miss seeing "CHARGE IT," one of the ultra pictures of many years. Hon. Kenneth N. Gilpin

For Lieutenant-Governor

HON. KENNETH N. GILPIN.

Dr. Edwin A. Alderman
President of the University of Virginia

In a letter under date of December 17th, 1920, addressed to Hon. Kenneth N. Gilpin, of Clarke County, had the following to say in regard to his candidacy for Lieutenant Governor of Virginia:

"I want you to know that I am frankly and deeply interested in your political future. I believe the State of Virginia has need of such a man as you in its high offices, for its own sake primarily. I have no doubt that a great future awaits you, for you possess all the qualities of mind and character to carry off a great career."

THE above tribute is indeed a fitting one to Mr. Gilpin whose record politically, personally and otherwise has never been questioned, and one well deserved if service and straight forwardness counts for anything.

In time of peace as a member of the General Assembly, Mr. Gilpin's position on all important matters was never in doubt. He has always had the courage of his convictions. In time of war he was found seeking service, NOT EXEMPTION, and served in the most hazardous branch, namely, Aviation, and was for nearly a year, on the French Front doing active duty.

Mr. Gilpin favors and stands for a business-like and economical administration of state affairs.

Mr. Gilpin is openly opposed to any STATE BOND ISSUE that will increase taxation, and those who would have you believe otherwise on account of his position on local Bond Issues, do so for political purposes.

Mr. Gilpin's long service in the General Assembly, where he served on some of the most important committees, gives him a broad knowledge of the administration of the State's business.

He is clean, honest and fearless and worthy of your confidence.

RESURRECTION OF THE DEAD SOON

"If a man die, shall he live again?" Job 14:14
"Thy dead men shall live." Isa. 26:19.

It will be conclusively proven from the Scriptures that the time is close at hand for the bringing back of the earth's millions from the tomb. Truly a message of comfort to the bereaved and of interest to all, as the prospect of soon having back with us the dear ones who have gone to the grave is a glorious one. It will be shown that this is to be accomplished by the Lord Jesus through his long-promised Kingdom which is soon to be established in the earth. If you are desirous of hearing a satisfying solution of the problem of the resurrection of the dead, you should hear

BRITISH FLEET.

The enemy's fleet in the Potomac has united all its forces, and lies opposite Mount Albino, the farm of Major Somerville, 30 miles up the river. It consists of 6 ships of the line, 3 frigates, 2 sloops of war, 5 gun brigs, 8 schooners, 1 sloop, 1 rocket vessel, some store ships, and from 50 to 60 launches. The Woolwich 74, sailed on secret business to Bermuda on Saturday. Blackstone's and St. George's Islands have been in the possession of the British for 10 days. Some attack of importance is probably meditated. The two Admirals and Sidney Beckwith are all in the fleet. Considerable bodies of militia are on duty. The dead persons thrown in the river by the fleet, annoy the inhabitants exceedingly.

FROM THE LONDON TIMES OF APRIL 6, 1813.

A Boston paper, of the 5th ult., has just come to our hands, containing a message from the President to Congress, of the most violent and infuriated description. . . . . No sooner does information of the British order in council reach Mr. Madison than it throws him into a paroxysm of rage. In the midst of all his pacific expressions he issues a State Paper, couched in such vulgar and violent abuse, as have by common consent been long banished from the official acts of civilized governments . . . . . he suggests a prohibition of all exportation from the United States in foreign bottoms—a piece of madness that not even Bonaparte or Robespierre, in their maddest fits, ever dreamt of committing. . . . . Surely, if the American Congress pass such laws as these, they must be fitter for apartments in Bedlam, than for the state and authority of the legislative office.

State News

(Continued from page one)

Norfolk, Va.—Directors of the Tidewater Automobile Association have adopted resolutions favoring the $50,000,000 bond issue for good roads which will be up for action before the next General Assembly. Danville, Va.—James A. Rice, put on trial yesterday at Halifax Court House charged with being the leader of a mob which attacked the jail last March, was acquitted by the jury yesterday afternoon. A verdict was reached in half hour's time.

Newport News, Va—"Edgewater," the country home of Mrs. Henry C. Shelton, near Langley Field, was to fully destroyed by fire of unknown origin early this morning, entailing a total loss estimated at $8,500. Norfolk, Va.—With delegates in attendance from the 45 Sunday Schools in Eastern Virginia and Northern North Carolina, the fifty-second annual convention of the Eastern Virginia Christian Sunday School was opened in First Christian Church, Berkley, today. Federal Taxes Due In July.

"All federal special taxes are due and payable during the month of July to avoid penalty of 25 per ct." said J. C. Noel, Collector of Internal Revenue, yesterday. There are about fifteen thousand special tax payers in the state and at he close of business on yesterday less than one half of the number had tendered the necessary forms and checks. Unless received at the office of the Collector at a branch office located in the principal cities throughout the state on or before July 30th, each return will be subject to a penalty of 25 per cent of the amount of tax.

Special taxes are due including druggists dispensing liquor upon prescription, autos for hire, pool rooms, theatres of all clases, pleasure boats, wholesale and retail dealers selling oleomargine and renovated butter, pawnbrokers, ship brokers, custom house brokers, commission merchants, tobacco warehouses selling on commission, shooting galleries, public exhibitions, dance halls, manufacturers of cigars, cigarettes and tobacco. Doctors, dentists and druggists prescribing or compounding narcotics were required to renew their license in June. Hundreds of doctors and druggists will be fined for failure to file their applications on time.

Capital stock returns are due in July accompanied by check to avoid penalty.

J. C. NOEL, Collector.

TAXATION BILL FACES DELAY.

(Continued from page one)

that figure was high, and that the experts had estimated for him that the yield now is about $80,000,000.

While the Ways and Means Committee is working on the Taxation Revision bill the Senate is to pass a number of important measures, according to an understanding reached at the White House last night, when the President had a number of the Senate leaders as guests at dinner.

Two of the bills to be put through the Senate are measures in which the so-called agrarian bloc is interested. They are the Capper-Tincher Grain Exchange bill, to prevent speculation in grain futures, and the bill to authorize the War Finance Corporation to aid the farmers' credit situation and to help the exportation of farm products.

Another measure that is to be passed by the Senate, according to the understanding reached last night, is the Willis-Campbell Anti-Beer bill. The bill to carry out the Administration's plans to give relief to the railroads and the Penrose measure embodying Secretary Mellon's ideas as to authority necessary for the refunding of foreign loans due this Government are not expected to go through before the recess.

In furtherance of the Administration plan the President will have a dinner conference tomorrow night with a dozen House Republican leaders. The Senate Republican steering committee also will meet tomorow to discuss the proposed plan.

There is no doubt now that the President and the leaders are set in their plans to enact the Taxation Revision bill into law before the Fordney Tariff bill is made law. When all the maneuvers are over and everything is set to bring about recess, following the House's passage of taxation revision. pressure will be applied to accomplish the recess, and immediately after that the Finance Committee of the Senate will suspend its hearings on the tariff, take up the Taxation Revision bill and whip it into satisfactory shape. The length of the recess will depend largely upon the time the Finance Committee thinks it will need to go ovr the taxation bill.

Upon the reconvening of Congress that bill will be passed and then the Senate will turn, more or less leisurely, to the tariff, which may not become law until the tail end of the present session.

Kidney and Bladder Troubles HAVE TO GO

Clogged up Kidneys Deposits are Dissolved and the Toxins (Poisons) Completely Driven Out. Druggists Told to Guarantee it in Every Instance.

"Your very life," says Dr. Carey, "depends upon the perfect functioning and health of your kidneys so whatever you do don't neglect them."

Dr. Carey's famous prescription No. 777 known as Marshroot is not recommended for everything, but we cannot too strongly urge its use if you suffer from annoying bladder troubles, frequent passing of water night and day ,with smarting or irritation, brick dust sediment or highly colored urine, bloating irritability with loss of flesh, backache, rheumatism or any other tendency to Bright's Disease, Diabetis or Gravel, for kidney disease in its worst form may be stealing upon you.

Don't wait until to-morrow to begin the use of this wonderful prescription if you have any of the above symptoms, Kidney and Bladder troubles don't wear away. They will grow upon you slowly, stealthily and with unfailing certainty.

Never mind the failures of the past if you even suspect that you are subject to Kidney Disease, don't lose a single day for—every good druggist has been authorized to return the purchase money on the first two bottles to all who state they have received no benefit.
